Beta combines modern lighting technology with classical appeal, its non-glaring light virtually transforming streets and squares into cosy locations. A satin-finish diffuser ring at the top end of the luminaire casts soft light onto the luminaire roof—a highly effective detail that defines the luminaire’s overall look. A wide selection of poles and arms enable maximum freedom of light design.
Beta overview

scale 1:50
Beta

aluminium top shade · pearl PC diffuser · die-cast aluminium brackets · die-cast aluminium top · Selux Graphite or special finish

LED freeform lens optics or HID reflector optics with asymmetrical light distribution for street lighting for excellent visual comfort
