# El-Electric: A History

# Switching the Light On

El-Electric – Est. 1954

**In 1954 John Ellemor founded El-Electric, manufacturing and supplying low voltage fluorescent lighting for shop window displays in the inner city suburbs of Melbourne. From humble beginnings in a back yard in Pascoe Vale, Victoria, El-Electric expanded the business as demand for Australian-made energy efficient fluorescent lighting grew.**

**The first El-Electric factory was built in Ferntree Gully in 1965 and in 1991 Rob Ellemor (son of John) took over the business. In 1999, El-Electric moved to the Beenleigh factory in Queensland, where operations are still run from today. El-Electric remains an Australian-owned, family-run business, and is now managed by Glenn Ellemor – grandson of founder, John Ellemor.**

## **AUSTRALIAN-DESIGNED LIGHTING FOR AUSTRALIAN LIVING**

El-Electric products are carefully designed and selected to withstand Australian environments and are manufactured to meet the Australian standards.

The El-Electric lighting portfolio has expanded to reflect the advancements in technology and includes built-in smart sensors, wireless control, LED light sources for our circular ceiling luminaire range, LED panels, strip lighting, down lights and bespoke custom designs.

## **QUALITY LIGHTING, EXCEPTIONAL SERVICE**

El-Electric prides itself on incorporating only the highest quality materials in the manufacturing process, ensuring customers benefit from the long life and economy of operation synonymous with El-Electric lighting.

From design and manufacturing, to project support and bespoke lighting services, the El-Electric team is committed to providing you with a comprehensive and supportive experience each and every time.

# Category Overview

# The El-Electric Guide to: Bespoke Lighting

**El-Electric offers a bespoke lighting service with products that are carefully designed and selected to meet the customer's needs and requirements. All of our bespoke lighting is manufactured to Australian standards.**

## **FEATURES & BENEFITS**

- Designed and manufactured in Australia with local designers reduces lead times, ensuring your project is delivered on time
- Using only the highest quality materials available ensures longevity of the product alongside an extensive warranty
- Bespoke lighting that is functional and aesthetically pleasing to suit any design brief

## **SUGGESTED APPLICATIONS**

- Cafes & Restaurants
- Foyers
- Halls
- Hotels
- Medical Facilities
- Office Space
- Receptions
- Retail Fitouts

## **EL-ELECTRIC PRODUCTS**

- Cilindro [18](#)
- Eclipse [29](#)
- Milano [73](#)
- PLUS your custom design

# The El-Electric Guide to: Circular Ceiling Luminaires

**Building on our reputation for high-quality, circular luminaires that are manufactured with the traditional fluorescent light source, we also offer high-quality LED technology to offer a comprehensive range of circular ceiling luminaires.**

## FEATURES & BENEFITS

- Designed and manufactured in Australia with most models available in stock ready for dispatch to reduce lead time and ensure your project is delivered on time
- Australian manufacture allows El-Electric to customise our original designs to suit your requirements
- Using only the highest quality materials available ensures longevity of the product alongside an extensive warranty
- The Plexiglas opal acrylic diffuser provides great light transmission and diffusion, and it won't turn yellow or become brittle with age ensuring a cleaner light for longer
- Surface mount or pendant install options to suit any interior layout
- Available in a variety of sizes to suit any budget, style, environment and lumen requirements
- Circular ceiling lighting that is functional and aesthetically pleasing to suit any design brief

## SUGGESTED APPLICATIONS

- Aged Care & Nursing Homes
- Cafes & Restaurants
- Foyers
- Kitchens, Bathrooms & Bedrooms
- Living Areas
- Office Space
- Schools & Childcare Centres
- Walkways & Stairwells

## EL-ELECTRIC PRODUCTS

- Discus [25](#)
- Green-Lite, Green-Lite Slim [53](#)
- Lunar [63](#)

# The El-Electric Guide to: Downlights

**El-Electric has a range of downlights with modern LED technology to provide a diverse selection for your every need. Our impressive selection of downlight options, in a variety of sizes enables us to cater for all applications.**

## **FEATURES & BENEFITS**

- Our downlights are available in a variety of sizes and in most cases you will find a direct replacement for traditional compact fluorescent and halogen downlights
- We offer a range of optical diffusers/reflectors and mounting rings which assist to direct or diffuse the light, control glare and create an aesthetically pleasing luminaire
- Easy installation ensures you save on contractor costs
- Low maintenance ensures you save on maintenance costs
- High CRI provides vivid colours that enhances your product, suitable for motor showrooms, art galleries and retail display

## **SUGGESTED APPLICATIONS**

- Cinemas
- Foyers
- Halls
- Hotels
- Medical Facilities & Nursing Homes
- Office Space
- Receptions
- Residential
- Retail Fitouts
- Showrooms & Displays

## **EL-ELECTRIC PRODUCTS**

# The El-Electric Guide to: LED Panels

**LED Panels with surface mount, recessed, suspended or T-Bar ceiling options ensures a perfect fit for all applications. Providing high light output, efficacy and uniformity with a discrete appearance, these high quality panels are designed to last.**

**Our newest product, the Elle Panel, is available in customised sizes and finishes to meet your design specifications. This product is designed and manufactured in Australia using the highest quality materials available.**

## **FEATURES & BENEFITS**

- Instant light with no start up time or flickering
- Quality Tridonic Driver with 5 year warranty as standard
- A variety of sizes available to suit any application
- Easy installation ensures you save on contractor costs
- Low maintenance ensures you save on maintenance costs
- Uniform light source that is crisp, clean and even

## **SUGGESTED APPLICATIONS**

- Halls
- Medical Facilities
- Residential
- Retail & Office Spaces
- Schools & Childcare Centres
- Shopping Centres

## **EL-ELECTRIC PRODUCTS**

- Fusion, Fusion Slim, Fusion Round

# The El-Electric Guide to: Linear Lighting Systems

**Modular Strip Lighting Systems produce hidden yet effective ambient light sources for even the trickiest of spaces. The El-Electric Edge range will create a sophisticated mood that is guaranteed to impress.**

## FEATURES & BENEFITS

- Low voltage LED ensures low energy consumption and better value
- Options of either pre-cut and assembled or supplied in Kit format saves on installation costs
- With low running temperatures Linear Lighting Systems are perfect for every application
- Light-weight for ease of use and installation
- Linear Lighting Systems allow you to reduce or remove the need for visible light fittings ensuring a more aesthetically pleasing finish

## SUGGESTED APPLICATIONS

- Bathrooms & Wardrobes
- Feature Lighting
- Kitchens & Cabinets
- Living Spaces
- Reception Areas
- Stairs
- Work Stations
- Offices
- Shopping Centres
- Supermarkets
- Residential

# The El-Electric Guide to: Low Voltage Lighting

## 12-24V DC Input

**From our humble beginnings (soon after World War II) El-Electric have been manufacturing low voltage lighting which still plays a part in our range today. From our popular Green-Lite and Mini range through to the EDGE LED strip lighting you will be sure to find a product to suit your needs.**

### FEATURES & BENEFITS

- Designed with high-quality materials ensuring a long product lifetime
- An extensive warranty offers long-term confidence in our quality low voltage luminaires
- With a low voltage, these luminaires are able to be run off of 12/24V batteries or DC supplies
- The El-Electric Green-Lite and Mini are perfect for an overall, effective, light source in your desired area
- The El-Electric Edge features a slim profile that provides a sleek unobtrusive look, whilst delivering clean lines of light
- El-Electric's Accent range gives a fantastic ambient light whilst highlighting features in your garden such as outdoor water features
- El-Electric's versatile Spektra offers flexible LED strip lighting for straight or flowing lines in your outdoor area or camper vehicle

### SUGGESTED APPLICATIONS

- (4WD) Cars (E, G, M)
- Advertising Signs (S)
- Bars & Clubs (E, S)
- Bathrooms (E, S)
- Camping/Caravans/ Campers (E, G, M)
- Driveways (S)
- Feature Lighting (E, S)
- Kitchens & Cabinets (E, S)
- Outdoor Pools/Spas (S)
- Reception Areas (E, S)
- Stairs & Handrails (E, S)
- Trucks, Buses & Boats (G, M)

- Walkways/Pathways (S)
- Wardrobes & Bathrooms (E)
- Workstations (E)

### EL-ELECTRIC PRODUCTS

- Edge (E) [34](#)
- Green-Lite 220 (G) [53](#)
- Mini (M) [77](#)

# The El-Electric Guide to: Weatherproof Lighting

**El-Electric has a range of rugged luminaires, tested to the International Ingress Protection (IP) rating, to suit the outdoor Australian environment. These products have been carefully designed and manufactured to provide an unobtrusive luminaire for permanent outdoor use.**

## **FEATURES & BENEFITS**

- Available in a variety of sizes to suit any budget, style, environment and lumen requirements
- IP tested for dust: no bugs or dust can penetrate the luminaire reducing the need for cleaning
- IP tested for water: rain and water spray will not affect the luminaire, ensuring suitability for outdoor applications
- Designed and made with quality materials to ensure longevity of the product, alongside an extensive warranty
- Unobtrusive and functional products to suit any application

## **SUGGESTED APPLICATIONS**

- Advertising Signs (S)
- Bars & Clubs (S)
- Bathrooms (S)
- Car Parks (SA)
- Driveways (S)
- Factories & Warehouses (SA)
- Farms (SA)
- Food Processing Facilities (SA)
- Freezer Rooms (SA)
- Humid/Wet Areas (SA)
- Indoor Sports Hall (SA)
- Kitchens (S)
- Outdoor Pools/Spas (S)
- Outdoor & Security Lighting (SA)

- Schools (SA)
- Stadiums (SA)
- Stairs & Handrails (S)
- Transport Facilities (SA)
- Tunnels (SA)
- Walkways & Pathways (SA)

## **EL-ELECTRIC PRODUCTS**

# The El-Electric Guide to: Neon Replacements

**With incredible possibilities, the versatile Spektra Flex is the newest addition to our LED range and replaces the traditional glass neon for a fraction of the cost. Spektra Flex is available in a variety of sizes and is weatherproof, submersible, flexible, evenly-illuminated and environmentally friendly.**

## FEATURES & BENEFITS

- Available in RGB, Red, Green, Blue, Amber, White - 2700°K, 3000°K, 4000°K and 5000°K
- Perfect for sign-writing and creating stunning feature lighting
- Uniform lighting effect without spots ensures crisp, clear lighting
- Ingress Protection rating of IP68\*: dust-proof and can be immersed in water (\*see individual product for full details)
- UV and flame-resistant (PC) which is perfect for external applications
- Solvents and saltwater-resistant to withstand the harshest environments

## SUGGESTED APPLICATIONS

- Advertising Signage
- Bathrooms & Kitchens
- Clubs & Bars
- Driveways
- Outdoor Pools & Spas
- Stairs & Handrails

## Suspended or Surface Mount

### FEATURES

- Australian designed and manufactured
- Satin finish LED+ diffuser
- Suspended or surface mount
- Indirect lighting capabilities available on request

### ALL MODELS

- 240VAC 50HZ input voltage with over voltage protection
- IP20 Indoor use only
- Weight 6kg

### LUMINAIRE CONSTRUCTION

- Rolled Australian aluminium body
- Laser cut gear tray
- Black / White powder coat finish

### OPTIONS

- Different body colours on request
- DALI, Switch Dim or 0-10V dimmable available on request
- Rod suspension

### SUGGESTED APPLICATIONS

- Cafes and restaurants
- Clubs
- Medical facilities
- Office and retail spaces
- Schools and universities
- Shopping centres
- Walkways and stairwells

## Surface Mount or Pendant

### FEATURES

- Australian designed and manufactured from high-quality materials
- Low profile, modern design is functional and unobtrusive
- Mounting: surface mount or pendant

### ALL MODELS

- 240VAC 50HZ input (198-264VAC and over voltage protection)
- Quick-connect push terminal
- White powder-coat for surface mount
- Brushed aluminium with clear powder-coat for pendants as standard
- All fluorescent models 2GX13 lamp base
- Tridonic/VS ballast

### LUMINAIRE CONSTRUCTION

- Corrosion-resistant aluminium base plate
- Plexiglas opal diffuser gives soft, even light (matt finish)
- Spring steel clips
- Aluminium tube and canopy for pendant suspension

### OPTIONS

- Customised pendant lengths up to 3m
- Knuckle joint for raked ceiling pendants
- Trim colour options (MOQ's apply)
- Dimmable: DALI/SwitchDIM
- Fused terminal block
- IPX4 rating

### SUGGESTED APPLICATIONS

- Bathrooms
- Bedrooms
- Cafes and restaurants
- Cinemas
- Foyers
- Kitchens
- Living areas
- Nursing homes
- Office spaces

## Wallwasher

### FEATURES

- Australian designed and manufactured from high-quality materials
- Low profile decorative fitting adds style to your interior
- Wallwasher
- Available in LED or fluorescent
- Large selection of finishes
- Three solid points of contact to mounting plate for easy removal

### ALL MODELS

- 240VAC 50HZ input (198-264VAC and over voltage protection)
- Mounting: surface

### LUMINAIRE CONSTRUCTION

- Corrosion-resistant aluminium, brass or copper construction

### OPTIONS: FLUORESCENT/LED

- Dimmable control gear
- Brushed aluminium, copper or brass finish
- Polished brass, copper or chrome
- Powder-coated any colour
- Fabric cover: any vinyl, leather or cotton material

### SUGGESTED APPLICATIONS

- Childcare centres
- Foyers
- Hospitals
- Hotels
- Living areas
- Media rooms
- Nursing homes

# Edge

# Linear Lighting Systems

Edge, Edge +, Edge ++ and Edge Pro

Create a functional, sophisticated look that will impress. The complete Edge range is available in a range of profiles, sizes, diffuser options, LED light source options and colours to suit any project.

## The Edge profile range includes:

- Edge** – Micro profiles that provide a discreet solution for modern linear lighting
- Edge +** – Micro profiles with larger surface area for higher output
- Edge ++** – Commercial style profiles for high output, decorative lighting
- Edge Pro** – Commercial style profiles for high output, decorative lighting with integral control gear

### FEATURES

- Pre-cut and assembled or supplied in kit form
- Recessed or surface mount profiles
- 120 LED's/m (flexible strip) and opal diffuser provides clean, uniform light
- Anodised aluminium increases heat dissipation and corrosion resistance
- High output rigid FR4 PCB's (Edge ++ and Edge Pro only)

### ALL MODELS

- Brackets and end caps supplied
- PMMA opal diffuser as standard
- 1 metre tails standard

### LUMINAIRE CONSTRUCTION

- Anodised/aluminium channel
- Opal PMMA or polycarbonate diffuser

### OPTIONS

- Polycarbonate diffuser
- Semi-clear/frosted or clear diffuser
- Powder-coat to your colour preference
- Suspension kits
- Extended tail length

### SUGGESTED APPLICATIONS

- Feature lighting
- Kitchens and cabinets
- Reception areas
- Stairs
- Wardrobes and bathrooms
- Workstations
- Offices
- Shopping Centres
- Supermarkets
- Residential

Suits T-Bar or Surface Mount Bracket

## FEATURES

- 40,000 hours of operation
- Energy efficient
- No start-up time or flickering
- 120 degree beam angle
- Tridonic driver
- Even light distribution and no unwanted spots
- Maintenance-free

## ALL MODELS

- 240VAC 50HZ input (198-264VAC and over voltage protection)
- Mounting: recessed into T-Bar grid ceiling or surface mount bracket
- Side mounted 2835 SMD

## LUMINAIRE CONSTRUCTION

- Opal acrylic diffuser and laser etched LGP
- Extruded aluminium frame: powder-coated white

## OPTIONS

- Dimmable: DALI, Switch DIM
- Surface mount brackets
- Trim colour options
- CRI 90
- Cyanosis observation approved models

## SUGGESTED APPLICATIONS

- Childcare centres
- Halls
- Medical facilities
- Office spaces
- Retail spaces
- Schools
- Shopping centres

# Fusion Panels 600x600

Suits T-Bar or Surface Mount Bracket

### FEATURES

- 40,000 hours of operation
- Energy efficient
- No start-up time or flickering
- 120 degree beam angle
- Tridonic driver
- Even light distribution and no unwanted spots
- Maintenance-free

### ALL MODELS

- 240VAC 50HZ input (198-264VAC and over voltage protection)
- Mounting: recessed into T-Bar grid ceiling or surface mount bracket
- Side mounted 2835 SMD

### LUMINAIRE CONSTRUCTION

- Opal acrylic diffuser and laser etched LGP
- Extruded aluminium frame: powder-coated white

### OPTIONS

- Dimmable: DALI, Switch DIM, 0-10V
- Surface mount brackets
- Trim colour options
- CRI 90
- Cyanosis observation approved models

### SUGGESTED APPLICATIONS

- Childcare centres
- Halls
- Medical facilities
- Office spaces
- Retail space
- Schools
- Shopping centres

# Green-Lite 220

Low Voltage

## FEATURES

- Australian designed and manufactured from high-quality materials
- Modern, low profile design is functional and unobtrusive
- 12W high output: 1000lm (5000°K)

## ALL MODELS

- Mounting: surface
- On/Off thin mini rocker switch
- 12V AC or DC input
- Built-in reverse polarity protection (LED model)

## LUMINAIRE CONSTRUCTION

- Corrosion-resistant aluminium powder-coated base plate
- Plexiglas opal diffuser gives soft, even light
- Spring steel clips

## OPTIONS: FLUORESCENT

- 12V or 24V
- 5m lead with cigarette lighter adaption option
- Pole clip, magnetic fixing, mobile worklight

## SUGGESTED APPLICATIONS

- Boats
- Buses
- Camping
- Caravans and campers
- Solar powered homes
- Trucks

- Spring steel clips
- LED version: twist lock diffuser

### OPTIONS: FLUORESCENT

- Diffuser options: satin marble finish, matt finish
- IPX4 rating
- High power factor (HPF)
- Electronic pulse starter
- Low loss ballast
- Fused terminal block
- Electronic ballast (198-264VAC and over voltage protection)

### OPTIONS: LED

- Diffuser options: matt finish
- IPX4 rating
- Fused terminal block
- Dimmable - Phase cut/DALI/Switch Dim

### SUGGESTED APPLICATIONS

- Childcare centres
- Foyers
- Hotels
- Hospitals
- Living areas
- Nursing homes/Aged care
- Residential
  - Bedrooms
  - Bathrooms
  - Kitchens
  - Living area
  - Laundry

MADE IN AUSTRALIA

10 year consumer warranty (housing). 5 year warranty (electrical). Refer to warranty card for more information. Due to continual improvement through research and development, El-Electric reserves the right to change specifications without notice. Must be installed by a Licenced Electrician.

# Green-Lite 490

### FEATURES

- Australian designed and manufactured from high-quality materials
- Modern, low profile design is functional and unobtrusive

### ALL MODELS

- 240VAC 50HZ input (LED: 198-264VAC and over voltage protection; Fluorescent: 220-264VAC)
- Quick-connect push terminal
- Mounting: surface
- Tridonic/CMP/VS iron core ballast as standard

### LUMINAIRE CONSTRUCTION

- Corrosion-resistant aluminium base plate
- Plexiglas opal diffuser that gives soft, even light
- Spring steel clips

### OPTIONS: FLUORESCENT

- Diffuser options: satin marble finish, matt finish
- Electronic ballast (198-264VAC and over voltage protection)
- IPX4 rating
- High power factor (HPF)
- Electronic pulse starter
- Low loss ballast
- Fused terminal block

# Green-Lite Slim 320

### FEATURES

- Australian designed and manufactured from high quality materials
- Low profile, modern design is functional and unobtrusive
- Electronic control gear

### ALL MODELS

- 240VAC 50HZ input (198-264VAC and over voltage protection)
- Quick-connect push terminal
- Mounting: surface
- Tridonic/VS electronic ballast

### LUMINAIRE CONSTRUCTION

- Corrosion-resistant aluminium base plate
- Plexiglas opal diffuser that gives soft, even light
- Spring steel clips

### OPTIONS

- Fused terminal block (fluorescent only)
- Dimmable: DALI/SwitchDIM
- IPX4 rating
- Upgrade Nichia LEDs for higher lumen output (LED only)

### SUGGESTED APPLICATIONS

- Bathrooms
- Bedrooms
- Childcare centres
- Kitchens
- Living areas
- Nursing homes/Aged care
- Office spaces
- Schools
- Walkways and stairwells

# Lucent Downlight

# Lucent Downlight

## FEATURES

- 40,000 hours of operation
- Beam angle 60° standard
- Out performs 50W halogen
- Cast aluminium heat sink

## ALL MODELS

- 240VAC 50HZ input and over voltage protection
- Mounting: recessed

## LUMINAIRE CONSTRUCTION

- Anti-glare reflector
- CREE LED
- Aluminium low profile trim

## OPTIONS

- White/black trim
- Alternative trim profiles
- IP54 trim option (75 cut out)
- CRI 90
- 15°, 28°, 40° & 60° beam angle options
- Dimmable – Phase-cut, DALI, Switch dim

## SUGGESTED APPLICATIONS

- Residential
  - Living areas
  - Kitchens
  - Bedrooms
  - Bathrooms
- Cafes
- Clubs
- Medical facilities
- Office space
- Restaurants
- Retail spaces
- Schools and universities
- Walkways and stairwells

# Metro 600

## FEATURES

- Australian designed and manufactured from high-quality materials
- Contemporary design which is stylish, unobtrusive and aesthetically pleasing

## ALL MODELS

- 240VAC 50HZ input (198-264VAC and over voltage protection)
- Quick-connect push terminal
- Mounting: surface
- Tridonic/VS/Mean Well driver

## LUMINAIRE CONSTRUCTION

- Corrosion-resistant aluminium base plate
- Plexiglas opal diffuser that gives soft, even light (matt finish)
- Spring steel clips

## OPTIONS

- Microwave sensor
- Dimmable: DALI/Switch DIM/0-10v
- IPX4 rating
- Fused terminal block

## SUGGESTED APPLICATIONS

- Cafes
- Childcare centres
- Foyers
- Kitchens
- Living areas
- Nursing homes/Aged care
- Office spaces
- Restaurants
- Schools
- Walkways and stairwells
- Clubs

Surface Mount or Pendant

## FEATURES

- Australian designed and manufactured from high-quality materials
- Contemporary design which is stylish, unobtrusive and aesthetically pleasing
- Electronic ballast
- Multiple mounting options

## ALL MODELS

- 240VAC 50HZ input (198-264VAC and over voltage protection)
- Quick-connect push terminal
- Mounting: surface or Pendant
- Tridonic/VS Electronic Ballast

## LUMINAIRE CONSTRUCTION

- Corrosion-resistant powder-coated aluminium base plate
- Plexiglas opal diffuser gives soft, even light
- Spring steel clips
- Aluminium tube and canopy for pendant suspension

## OPTIONS

- Customised pendant lengths up to 3m
- Knuckle joint for raked ceiling pendants
- Dimmable: DALI/SwitchDIM
- IPX4 rating

## SUGGESTED APPLICATIONS

- Bathrooms
- Bedrooms
- Cafes
- Childcare centres
- Foyers
- Kitchens
- Living areas
- Nursing homes/Aged care
- Office spaces
- Restaurants
- Schools
- Walkways and stairwells

# Mini One

## Low Voltage

### FEATURES

- Australian Designed and Manufactured from high-quality materials
- Modern, low profile design is functional and unobtrusive

### ALL MODELS

- Mounting: surface
- Neoprene gasket for insect and weatherproofing
- 12V AC or DC input
- Built-in reverse polarity protection (LED model)

### LUMINAIRE CONSTRUCTION

- Corrosion-resistant aluminium powder-coated base plate
- Plexiglas opal diffuser gives soft, even light
- Spring steel clips

### OPTIONS: FLUORESCENT

- 12V or 24V
- 4.5m lead with cigarette lighter adaption option
- Yellow diffuser to reduce the attraction of insects
- Pole clip, magnetic fixing, mobile worklight

### SUGGESTED APPLICATIONS

- Camping
- Caravans and campers
- Solar powered homes
- Trucks, buses, boats

MADE IN AUSTRALIA

10 year consumer warranty (housing). 5 year warranty (electrical). Refer to warranty card for more information. Due to continual improvement through research and development, El-Electric reserves the right to change specifications without notice. Must be installed by a Licenced Electrician.

# Mini Two

## Low Voltage & 240V

### FEATURES

- Australian designed and manufactured from high-quality materials
- Modern, low profile design is functional and unobtrusive

### ALL MODELS

- Mounting: surface
- Neoprene gasket for insect and weatherproofing
- 12V AC or DC input
- Built-in reverse polarity protection (LED model)

### LUMINAIRE CONSTRUCTION

- Corrosion-resistant aluminium powder-coated base plate
- Plexiglas opal diffuser gives soft, even light
- Spring steel clips

### OPTIONS: FLUORESCENT

- 12V or 24V
- 4.5m lead with cigarette lighter adaption option
- Yellow diffuser to reduce the attraction of insects
- Pole clip, magnetic fixing, mobile worklight

### SUGGESTED APPLICATIONS

- Camping
- Caravans and campers
- Solar powered homes
- Trucks, buses, boats

# Spektra

[www.el-electric.com.au](http://www.el-electric.com.au) | T: (07) 3807 2777 | F: (07) 3807 7099

# Spektra Flex Flat Top – PVC

## FEATURES

- Flexible with 120mm minimum radius
- Uniform lighting effect without spots
- Up to IP68
- IK08 protection
- 160° beam angle
- UV and flame resistant (PVC)
- Solvents and saltwater resistant
- Anti wicking ferrule on all injection moulded cable entry

## ALL MODELS

- Remote DC 24V power supply required
- Mounting: surface or recessed

## LUMINAIRE CONSTRUCTION

- PVC polymers
- Epistar LEDs

## OPTIONS

- Four connections: Mechanical screw fixing (IP67); Clasp (DIY IP67), Plastic (DIY IP40), Injection moulded (IP67), Dual injection moulded (IP68 submersable) with no dark spots between two pieces for seamless illumination
- Colour jacket: when light is off the blue/red/yellow/green colour can still

be seen – single colours only

- Self-locking aluminium or plastic profile for mounting
- Other colour temperatures available on request: 2400°K - 6500°K

## SUGGESTED APPLICATIONS

- Advertising signage
- Bars and clubs
- Bathrooms
- Driveways
- Kitchens
- Outdoor pools and spas
- Stairs and handrails

# Power Supplies

## Edge Series

### FEATURES

- Universal AC input/ full range (up to 305VAC)
- Built-in active PFC function
- High efficiency up to 93.5%
- Protections: short circuit/over current/over voltage/over temperature
- Cooling by free air convection
- OCP point adjustable through output cable or internal potentiometer
- IP67/IP65 design for indoor or outdoor applications
- Three-in-one dimming function (1-10Vdc or PWM signal or resistance)
- Suitable for LED lighting and street lighting applications
- Compliance to worldwide safety regulations for lighting
- Suitable for dry/damp/wet locations
- 7 year warranty - HLG series
- 5 year warranty - ELG series

#### Meanwell Drivers Part No.

## TRIDONIC

### FEATURES

- Universal input voltage range
- Constant output voltage
- Nominal lifetime up to 50,000 hours
- 5 year warranty
- High efficiency
- Complies with Class C from minimum to maximum load range according to EN 61000-3-2
- Low power loss
- Over temperature and overload protection
- Short circuit shutdown feature with automatic restart
- Protection class II, SELV
- IP20
- Plastic white casing

#### Tridonic CV Drivers Part No.
